Dear Reader,

Studying in Hungary is a unique experience, both from an academic and a professional point of view. The students who visit us develop their skills and knowledge and, at the same time, they have the opportunity to live in a country famous worldwide for its hospitality and its quality of education.

Hungary’s higher education centres are dynamic and modern institutions, constantly adapting to the new challenges of the knowledge society and market needs, preparing its’ students for employment in a wide variety of fields. The universities are firmly committed to the task of converting their campuses into poles of attraction for international talent. They are the centres of knowledge, culture, and the workshops of research. Besides preserving national traditions, Hungarian HEIs are part of the European Higher Education Area (EHEA), and develop and maintain relations with a large number of HEIs all over the world.

There are more than 60 higher education institutions located all over Hungary, offering students courses leading to degrees at the undergraduate, graduate, postgraduate and PhD level in countless specialisations taught in Hungarian, English, German or French. Since this booklet can only give a brief description of the Hungarian system of higher education, I suggest you browse the website of the Hungarian Rectors’ Conference (www.mrk.hu) for more details about our universities and colleges.

Last, but not least, I would like to encourage both students and instructors to choose Hungary, one of Central Europe’s most dynamic, cosmopolitan countries for gaining knowledge, experience and friendships that will last for a lifetime.

Prof. Dr. József BÓDIS
President of the Hungarian Rectors’ Conference

Hungarian Rectors’ Conference

The Hungarian Rectors’ Conference (HRC) is a body to represent the whole Hungarian higher education institution system. Its members are the rectors of universities and colleges. The system of Hungarian higher education is very diverse as it comprises state, church, private and foundation higher education institutions which all are represented both in Hungary and abroad by HRC as a public corporation. The conditions of operation of HRC are provided by higher education institutions.

HRC is, by virtue of law, a public benefit organization with special legal status to perform also public duties set out in the Act on Higher Education in connection with its members and to the activities and duties of its members.

HRC is an independent public corporation entitled to represent higher education institutions and to protect their interests. HRC may deliver an opinion on any issue with relevance to the operation of the higher education system and may make proposals for decision-makers or those in charge of preparing decisions. The Statutes include the regulation of operation and a four-level system of organization of HRC. The supreme decision-making organization of HRC is the Plenary Session, comprising all of the rectors of the Hungarian higher education institutions (66). Universities and colleges are represented by a specific University Section and a College Section. Operative decision-making and implementation duties are fulfilled by the Presidency with ten members. Special professional issues are discussed by nineteen committees with powers of decision-preparation. The bodies of HRC are supported by the Secretariat headed by the Secretary General.

The means available to HRC are specified by the Act on Higher Education and other legal regulations. Interest representation can mainly be exercised by HRC’s right of assent in most significant issues of the regulation of higher education.

Legal regulations provide also another means for interest representation, allowing the representatives delegated by HRC to take part in the activities of other higher education bodies and organizations. HRC delegates members to the Hungarian Accreditation Committee of Higher Education, to the Higher Education and Scientific Council, to the Hungarian Scholarship Board, to the Language Examination Accreditation Board and to other organizations active in the field of higher education and research.

HRC is member of the European University Association and the International Association of Universities.

President: Prof. Dr. József BÓDIS, rector of the University of Pécs
Co-president: Dr. Éva KRISZT-SÁNDOR, rector of Budapest Business School
Honorary President: Dr. Barna MEZEY, rector of the Eötvös Loránd University
Secretary general: Dr. Zoltán DUBÉCZI

- President of the University Section: Dr. Gábor SZABÓ, Budapest University of Technology and Economics, Budapest
- President of the College Section: Dr. Kálmán LIPTAI, Eszterházy Károly University of Applied Sciences
Come Study in Hungary!

About Hungarian higher education in general

Hungarian higher education has a long history, with the first university founded in 1367. Hungary's modern higher education system consists of universities and colleges that emerged in the 20th century. Hungarian diplomas are highly regarded worldwide. The programmes are of a high standard, yet tuition fees and living costs are quite reasonable.

Hungary's huge contribution to the world's intellectual heritage includes many Hungarian-educated Nobel Prize winners, famous Hungarian inventions including the ball-point pen (Biro), phosphorous matches (Innyi), the electric train (Kandó) and the telephone exchange (Puskás), not to mention a long list of famous composers, painters and artists, including Zoltán Kodály, Béla Bartók, Victor Vasarely and Jenő Ormandy.

Introduction

Hungarian Higher Education Institutions’ Programmes in Foreign Languages

Hungary's Higher education system

Higher education programmes in Hungary are offered by universities and colleges. In accordance with the common European higher education principles, Hungary introduced the three cycle degree structure in 2006 (BA/BSc, MA/MSc, and PhD/DLA). Within the framework of this system, BA/BSc programmes lead to a first degree. Master level programmes require a first degree as admission criterion. There are a few fields of tertiary education (e.g. law and medical
studies) where undivided long programmes remain the standard form of study (10 to 12 semesters) leading to a first degree which is however equivalent to an MA/MSc degree. All BA/BSc and MA/MSc degrees grant access to the labour market. In addition to full degree courses, HEIs offer shorter programmes too, such as summer universities and partial training. The strength of Hungarian higher education lies in its PhD/DLA programmes. The doctoral degrees granted by Hungarian HEIs have a good international reputation. The pre-requisite to entering doctoral programmes is a MA/MSc degree.

The academic year is divided into 2 semesters including 14–15 weeks of lectures and seminars followed by a 6-week examination period.

Frequently Asked Questions

**Are my credits gained in Hungary transferable?**

As Hungary has been a member of the European Union since 2004, the Hungarian higher education institutions are part of the European Higher Education Area, and the credits and degrees gained in Hungary are transferable to other European institutions. The main objective of the introduction of the credit system was to harmonize different country’s education systems and to facilitate student mobility. As a result of this harmonisation, higher education institutions in Europe will recognise your credits earned in a Hungarian institutions and vice versa.

**What are the admission requirements? What qualifications do I need in order to be admitted to a higher education institution in Hungary?**

According to the Higher Education Act, admission to Bachelor’s degree (BA) programmes and unified, undivided, long-term Master’s degree programmes is selective. The prerequisite of admission to any study programme in a higher education institution is either (a) the Hungarian secondary school leaving certificate, or (b) its foreign equivalent, or (c) a degree obtained in higher education accredited or recognized in Hungary. There are a few exceptions where practical examinations or aptitude tests are also required. Study programmes in the fields of music and arts require applicants to demonstrate their particular artistic abilities. If you wish to obtain a PhD degree in Hungary, the basic requirement is to hold a university degree which is equivalent to an MA/MSc degree.

**Do I need a visa?**

A) Students from the European Union and the European Economic Area

Students from the European Union, the European Economic Area and students who are citizens of countries listed in the 539/2001/EC council regulation Annex II. may travel to Hungary without a visa. They may apply directly for the residence permit upon arrival to Hungary if their expected stay exceeds the period of 90 days.

B) Foreign students from outside the European Union

Foreign students from outside the European Union and students who are not citizens of countries listed in the 539/2001/EC council regulation Annex II. are required to apply for a visa. The application may be submitted at the Hungarian diplomatic mission or consular post in the country of your permanent or habitual residence. If there is no such mission there, you can turn to any other Hungarian diplomatic mission or consular post. The process of issuing the visa may take one month.
Residence permit

Once you have a valid visa, you will also need a residence permit. For the residence permit application you need to submit the visa; a letter of acceptance from the Hungarian HEI you wish to attend; confirmation from the institution that the applicant is exempt from the payment of tuition fees or that he/she has already paid the tuition fees; a document certifying occupancy in Hungary; documents certifying subsistence in Hungary; and a certificate of health insurance. Note that the process may last for up to two months.

How much money do I need for living in Hungary?

In practice, you will need at least 100,000 HUF (320 EUR; 530 USD) per month in order to cover the costs of decent accommodation (about 50,000-60,000 HUF + utilities (190-230 EUR; 280-330 USD)), pay for public transport (one month in Budapest: 3,850 HUF (14 EUR; 21 USD)), and even go out occasionally. This amount should cover the costs of rent, food, clothing, personal hygiene, local transport, study materials, health insurance, telephone and other expenses – but not the tuition fee. There are small regional differences in the cost of living: Budapest is more expensive than other Hungarian cities.

How do I find accommodation?

You have several options to choose from when looking for public or private accommodation in Hungarian cities. You may stay in the student residence of the university you are attending, rent a room, share a flat, or rent a whole flat on your own. Since the rent may take up more than the half of your budget, your other financial options will depend greatly on your choice of accommodation. Note, however, that student residence places – meaning usually twin and more rarely single bedrooms – are limited in number.

Information on private places for rent can be found in the classified adverts in newspapers, on the Internet or on the notice boards of the university. In many institutions, the offices of international or foreign student affairs, or the centre for student services will help you find a convenient place to stay. Renting rooms and sharing flats is naturally cheaper.

Do I require health insurance?

Residents of EEA (European Economic Area) countries and Switzerland, who are entitled to health care of the national health service of their respective countries of residence, can receive health care free of charge in Hungary on the basis of the European Health Insurance Card. Residents of countries which have signed bilateral agreements with Hungary are also entitled to receive health care free of charge in urgent cases. Participants of international student exchange programmes and scholarship holders in Hungary are entitled to free medical care as well.

Residents of third countries have to pay full price for the health care services in Hungary. Foreign residents studying in Hungary may obtain health insurance by signing agreement with National Health Insurance Fund (OEP) and paying 30% of the local minimum wage per month (23,400 HUF; approx. 90 EUR, 130 USD).

Introduction

Students can choose from over 60 majors, and upon graduation, from 25 doctoral schools. UD is a leading research university, educating close to 30,000 students in 14 faculties. The University of Debrecen has been focusing on research and development for more than 60 years, and it has been the centre of the Hungarian scientific community for many decades.

Prep. programmes - Duration: 1-2 semesters, Tuition fee: USD 2,000-7,000/semester

General Information

BSc/BA- Duration: 6-7 semesters, Tuition fee: USD 5,500-8,500/year
MSc/MA- Duration: 4 semesters, Tuition fee: USD 6,000-8,500/year
General Medicine- Duration: 12 semesters, Tuition fee: USD 16,000/academic year
Pharmacology- Duration: 10+2 additional semester for MPH/DPharm, Tuition fee: USD 8,000/year
PhD- Duration: 6 semesters, Tuition fee: USD 6,500/year
Prep. programmes - Duration: 1-2 semesters, Tuition fee: USD 2,000-7,000/semester

Short Introduction

UD is a leading research university, educating close to 30,000 students in 14 faculties. Students can choose from over 60 majors, and upon graduation, from 25 doctoral schools.

International Relations and Projects

UD has international relations with about 300 universities in Europe and worldwide. Students can participate in the Easmus, SEP and CEEPUS programmes, as well as bilateral exchange programmes to spend a semester or two abroad. New relations have just been established with some Chinese and Indian universities, and hopefully more will follow soon. From 2012 the University is also going to launch pre-master courses for international students, who seek admission to one of our master’s programmes.

General Information

Eötvös Loránd University offers students a huge variety of programmes in a wide range of subjects at different levels of tertiary education. For detailed information on the entry requirements and tuition fees, please visit the programme-specific pages of the appropriate faculties. http://www.elte.hu/en/degree-programmes

Short Introduction

Eötvös Loránd University (ELTE), the leading research university of Hungary, serves the interests of high quality education and cutting edge research with the conviction that neither can exist without the other. Therefore all the educational programmes of ELTE implement the latest research achievements.

International Relations and Projects

ELTE is also one of Hungary’s most international institutions, with more than 700 European partner universities and more than 65 from other continents. Profiling from such an international environment allows ELTE to design educational programmes of the highest academic standard with the most of our educational and industrial partners. This philosophy of co-operation assures that ELTE degrees are accepted around the globe, and ELTE graduates are in constant demand on the labour market. Eötvös Loránd University already provides more than 40 programmes in English and the number of joint degree programmes is growing each year. In 2010 and 2011 two ERASMUS Mundus master programmes (TEMA, DCGC) joined the colourful portfolio of our institution. For ERASMUS Mundus scholarships please visit our website. As well as these various programmes, ELTE also organizes several summer universities. For further information please consult: in English: www.elte.hu/en; in Chinese: www.elte.hu/cn; in German www.elte.hu/de

General Information

BA/BSc: Duration: 6 semesters for a few programmes 6 + 1 semesters; BSc in Agricultural Engineering, BA in Business Administration and Management, or 5 semesters: English teaching Master’s degree (Med) in teaching English, Tuition fee: EUR 1000-3700/semester.

MA/MSc: Duration: 4 semesters for UIM in International and European Trade and Investment Law: 2 semesters),

Preparatory programmes: Duration: 2 semesters, Tuition fee: EUR 5600-7000/semester

General Medicine (MD): Duration: 12 semesters, Tuition fee: 15400 USD/semester (years 1-3), 7700 USD/semester (years 4-6)

General Medicine (MD in Germany): 4 semester course covering the first two years, degree, Zugriff über die Ästhetische Vorprüfung: Duration: 4 semesters, Tuition fee: 13200 EUR/year (years 1-2)

Dental Medicine: Duration: 10 semesters, Tuition fee: 15900 USD/year.

Pharmacy: Duration: 10 semesters, Tuition fee: 9800 USD/year (year 1), 9300 USD/year (year 2-5)

PhD: Duration: 6 semesters, Tuition fee: EUR 2500-5000/semester

Short Introduction

The University of Szeged, which has more than a 430-year-long history, has one of the three Universities of National Excellence in Hungary, and it is also one of the largest educational institutions in the country. According to higher education rankings the USz is constantly around the outstanding Nr. 500 position in the world. The USz comprises 12 faculties and represents nearly 25,000 students including more than 2,500 foreign students and 8,000 employees.

International Relations and Projects

The educational, scientific and research activities of the University of Szeged are internationally recognized. The international perspective is reflected in the University’s research and training activities through the composition of the multilingual teaching staff, the outstanding participation in student exchange programmes and various international research collaborations. The University has bilateral agreements with more than 90 partner institutions and over 400 Erasmus partner universities worldwide. The USz participates in 8 CEEPUS networks either as coordinator (1) or as a partner institution (7). Mobility awards of the University: E-Quality Award, International Cooperation Quality Award. In the Campus Hungary programme’s five rounds so far the scholarship applications of the USz have achieved 80% success rate. The University of Szeged participates in other scholarship programmes too (Stipendium Hungaricum, Science Without Borders – Calvó es Fronteiras) where partial and full degree programmes are provided for international students. The Institution has won and has been delivering altogether 43 projects in the 7th EU R&D Framework Programme and its continuation, the Horizon 2020 Programme, as well as 72 projects within the New Széchenyi Plan. The University is in cooperation with various acknowledged international institutional networks. Further information: international@uszeged.hu

Budapest Business School

Programmes in English

BA in Commerce and Marketing (also in German), BA in Tourism and Catering (also in German), BA in International Business Economics (also in French), BA in Finance and Accounting, MA in Tourism Management, MA in International Relations, MA in International Economics and Business, MA in International Business (in cooperation with Anglia Ruskin University).

PhD in Business Studies (in cooperation with Anglia Ruskin University)

General Information

BA: Duration: 7 semesters, Tuition fee: for EU citizens: EUR 1,150-1,600/semester, for Non-EU citizens: EUR 2,000-2,600/semester and Semester and EUR 600 registration fee.

PhD: Duration: 6 semesters (full-time) or 4 semesters (part-time), Tuition fee: for EU citizens: GBP 2520 - 4200/academic year for Non-EU citizens 5880-9800 GBP/academic year.

Short Introduction

The predecessor of Budapest Business School, Hungary’s market leading and largest college was the Academy of Commerce established in 1857. Highly qualified faculty guarantee excellent educational standards of professional master. Our efforts draw positive feedback since the Institution was awarded the Higher Education Quality Award in 2010, and since 2012 it is also holder of the ISQ 9001:2009 certificate. In 2013 the BBS received the title of University of Applied Sciences.

International Relations and Projects

The Budapest Business School has wide-ranging international relations with more than 200 universities and colleges in 43 countries on five continents.

Types of international cooperation:

1. Strategic cooperation based on dual award programmes, joint studies, research and joint projects.
2. Relations based on mobility of ERASMUS and CEEPUS programmes.
3. Bilateral educational, research and scientific cooperation outside the ERASMUS and CEEPUS programmes. Further information: international@bgf.hu

EU students: EUR 1,250/semester

Short Introduction
The Corvinus University of Budapest defines itself as a research university with an educational orientation. It operates on three campuses with seven faculties: the Faculty of Business Administration, the Faculty of Economics, the Faculty of Social Sciences, the Faculty of Public Administration, the Faculty of Food Science, the Faculty of Horticultural Science and the Faculty of Landscape Architecture.

International Relations and Projects
The University has agreements with more than 300 partner universities all over the world, this number is constantly growing. Most of them are ERASMUS partners (more than 200 universities within the European Union), there are also Central European partners (CEEPUS exchange) and bilateral agreements with highly regarded universities from all over the world. Our university is a member of the CEEMS programme and PIM, since 1996 and 2002 respectively. We also have double degree programmes and joint degrees with several European universities. Szent István University

Programmes in English
BSc in Agricultural Sciences, BSc in Wildlife Conservation and Management,
BSc in Mechanical Engineering, BA in Management and Business Administration,
MSc in Agricultural Sciences, MSc in Agricultural Biotechnology,
MSc in Wildlife Conservation and Management, MSc in Animal Nutrition and Feed Safety,
MSc in Mechanical Engineering, MSc in Rural Development and Agribusiness,
MSc in Management and Leadership, MBA (Master of Business Administration),
DVM Doctor of Veterinary Medicine,
PhD in Animal Science, in Biology Sciences, in Environmental Sciences, in Management and Business Administration, in Mechanical Engineering, in Plant Sciences, in Regional Sciences and in Veterinary science.

General Information
BA- Duration: 7 semesters, Tuition fee: EUR 1,800-2,200/semester
BSc- Duration: 7 semester, Tuition fee: EUR 2,200/semester
MSc- Duration: 4 semesters, Tuition fee: EUR 2,000-3,000/semester
MBA- Duration: 4 semesters, Tuition fee: EUR 10,000 + HUF 300,000/4 semesters
Doctor of Veterinary Medicine- Duration: 10 semesters, Tuition fee: EUR 10,980/academic year
PhD duration: min. 6 semesters, Tuition fee: EUR 4,000-6,000/semester

Short Introduction
SZIU, one of Hungary’s highest education institutions, consists of seven different faculties for study and research. With parts of its history dating back over 200 years, SZIU blends Hungary’s traditions and deep roots in agriculture with cutting-edge technology to meet the needs of its students in today’s competitive labour markets.

International Relations and Projects
Szent István University has about one hundred research groups working in different scientific areas. Our priority is the production of healthy and safe food sources, which includes research in the fields of veterinary sciences, animal husbandry, crop production, horticulture, environmental safety and evaluation of natural resources. Research in complex renewable and alternative energies is also emphasized.

We have more than 400 international cooperation agreements in the fields of education and research. For 16 years we have been successfully running the Lifelong Learning ERASMUS and CEEPUS mobility programmes. SZIU is a member of the most respected European and worldwide communities for higher education, such as EUA, ICA (including IROICA, CASEE and AGRINATURA), EAIEVE and VetNest. You can direct your questions to international@szie.hu

University of West Hungary

Programmes in English
BA in English Studies, BA in Germanic Studies (German), BA in Slavic Studies (Russian), BA in Slavic Studies, Specialisation in Croatian Studies, BA in Slavic Studies, Specialisation in Slovenian Studies, BA programme in International Business Economics, BA programme in Business Administration and Management (also in German).

MA in English Language Teaching, Master in teaching Russian, Master in teaching Croatian, Master in teaching Slovenian, MSc in Wood Technology.

PhD in Management and Organisation Sciences (Public Economy, Marketing, International Economy, Enterprise Economy and Management, Social and Economic Issues of Human Resources).

General Information
BBA- Duration: 6 + 1 (placement) semesters, Tuition fee: EUR 800-1500/semester
PhD programme- Duration: 6 semesters, Tuition fee: up to 2000 EUR/semester (depending on the field of study and the country of origin)
MA - Duration: 2-12 semesters
Tuition fee: EUR 1500/semester
MSc - Duration: 4 semesters
Tuition fee: USD 3000/semester
Short cycle higher education vocational training – 4 semesters
Tuition fee: EUR 2000/semester

Short Introduction
The University of West Hungary is a network university with a broad range of undergraduate and graduate programmes in the fields of arts, natural, technical, agricultural and social sciences, education, sports, visual arts and music. Based in Sopron, it has eight faculties and five doctoral schools in four towns (Sopron, Mosonmagyaróvár, Győr, Szombathely) in the Western Transdanubian region.

International Relations and Projects
The University of West Hungary has connections with more than 260 foreign higher educational and research institutions. It has 230 partners in Europe and 30 on other continents. We take part in the Erasmus+ and CEEPUS programs. The agreements, in accordance with the Bologna process, make it possible for our students to acquire knowledge abroad, learn about the culture of other countries and improve their command of foreign languages. Our academic and administrative staff can also make use of the mobility grants and we are regularly hosting exchange students and staff from our partner institutions.

Óbuda University

Programmes in English
Computer Engineering (BSc), Environmental Engineering (BSc), Electrical Engineering (BSc), Industrial Product Design Engineering (BSc), Material and Engineering Management (BSc), Applied Mathematics (MSc), Engineering Information Technology (MSc), Material and Engineering Management (MSc).

General Information
BSc- Duration: 7 semesters, Tuition fee: EUR 3,000/semester
MSc- Duration: 4 semesters, Tuition fee: EUR 3,500/semester
PhD- Duration: 6 semesters, Tuition fee: EUR 4,500/semester

Short Introduction
Óbuda University is a dynamic, thriving institution of higher education in Budapest, Hungary. Based on its 135 years tradition of postsecondary and undergraduate education in engineering and economics, it achieved university status in 2010. The comprehensive academic program was developed with emphasis on competitive, flexible and quality education, scientific research and development. A wide range of educational and research programs in technology, informatics and economics are offered at six faculties and one centre in modern facilities and in a stimulating environment. Students can select from 13 undergraduate, nine graduate programs and three doctoral schools. Óbuda University currently has approximately 13,000 enrolled students who pursue their studies in full-time, part time and distance learning programs in Hungarian, English and also partly in German language.

International Relations and Projects
Óbuda University currently cooperes with almost 300 partner institutions from 40 countries around the globe. These agreements cover scientific, research, educational and course development co-operations, joint ventures for organizing conferences and publishing scientific journals as well as faculty and student exchanges. During their studies our students can take courses abroad in order to get insight to another culture, learn different perspectives, gain foreign experiences, expand their professional and language knowledge and make new friends.

University of Pannonia

Programmes in English

- MSc in Agriculture
- MSc in Plant Protection
- BA in Business Administration and Management
- BA in Tourism and Catering
- MA in Economic Analysis
- MA in Tourism Management
- BA/MA in English
- MA in American Studies
- MA in Applied Linguistics
- MA in International Studies
- BSc in Computer Science
- MSc in Computer Science Engineering
- MSc in Environmental Engineering
- MSc in Environmental Sciences
- BSc in Chemical Engineering
- MSc in Chemical Engineering
- PhD in Agricultural Environmental Sciences
- PhD in Animal Sciences
- PhD in Chemical Engineering and Material Sciences
- PhD in Chemistry and Environmental Sciences
- PhD in Crap Production and Horticultural Sciences
- PhD in Information Science and Technology
- PhD in Molecular- and Nanotechnologies

General Information

BSc/BA – Duration: 6-7 semesters, Tuition fee: EUR 2000-4000/semester
MSc/MA – Duration: 4 semesters, Tuition fee: EUR 2500-4000/semester

Short Introduction

The five faculties of the University of Pannonia offer a wide scale of educational programs. The Geographical faculty (Est. 1797) was the first institution of agricultural higher education in Europe. Besides the traditional agricultural sciences, a great emphasis is laid on modern ecological considerations. The Faculty of Engineering (Est. 1949) offers graduate and research programs in all traditional fields of engineering including chemical engineering, mechanical engineering, environmental engineering. The bachelor’s and master’s programs of the Faculty of Modern Philology and Social Sciences (Est. 1990) cover the fields of education, social sciences and language studies. The Faculty of Information Technology (Est. 2003) offers study programs in IT and advanced technologies: business information technology, engineering information technology, software information technology, electric engineering, logistics engineering. The Faculty of Business and Economics (Est. 2003) offers nearly 20 bachelor’s and master’s programs in three fields: business economics, economics and technical management.

Scientific Research

The organizational structure of the University of Pannonia is based on the synergy between the educational, research and R&D activities. This methodology is also applied in the long-term development cooperation processes with other universities and industrial partners. The University of Pannonia has established joint research partnerships with several prestigious international institutions and project based R&D activities with numerous international companies, which guarantees solid support of the accomplishment of long-term professional and economic objectives.
Pázmány Péter Catholic University

Type of Programmes and Degrees
Bachelor’s degree, Master’s degree, PhD programmes, Master’s level further specialization, Higher level vocational training, Adult training and education

Short Introduction, International Relations
The PPCU has four faculties and an Institute with faculty rights as follows: Faculty of Theology (Budapest), Faculty of Humanities and Social Sciences (Piliscsaba, Budapest, Egergiem), Faculty of Law and Political Sciences (Budapest), Faculty of Information Technology and Bionics (Budapest), Institute of Canon Law (Budapest). Language programme studies available in the language of the taught culture: BA in English, German, French, Italian, Spanish, Latin, Russian, Chinese, Japanese. The PPCU has an international highly recognized Centre of Knowledge (Jedlik Laboratories) and the International Canon Law History Research Center. The University is a member of the Research University Network (RULN), FUCE, IFCU and the Research University Network of the “Visegrad Plus” Group (RUV).

Scientific Research, International Relations and Projects
The PPCU cooperates in many joined or double degree programs with several prominent universities in the international field (Politecnico di Torino, Institute Catholique de Porto Alegre, University of Padua, Notre Dame University [IN, USA], nevertheless the number of cooperation is rapidly multiplying. The PPCU has an international highly recognized Centre of Knowledge (Jedlik Laboratories) and the International Canon Law History Research Center. The University is a member of the Research University Network (RULN), FUCE, IFCU and the Research University Network of the “Visegrad Plus” Group (RUV).

Széchenyi István University

Programmes in English
MA in Marketing, MA in Infrastructure-Civil Engineering

General Information
Duration: Marketing: 4 semesters; Infrastructure-Civil Engineering: 3 semesters
Tuition fee: EUR 1,200 – 1,500/semester

Short Introduction
The University is the primary server of the regional economy and public services sector. It provides education, research in the fields of engineering, IT, pedagogy, economics, int. relations, law and administration, social work, health, and arts. Its activities encompass training at all levels (BSc, MSc, PhD).

International Relations and Projects
The professors and departments of the university have established a working educational and research co-operation with more than 40 higher educational and 70 industrial partners in Hungary. The university has institutional-level connections with more than 120 European institutions of higher education, and with numerous international partnerships outside Europe. Most of these programmes are educational partnerships and include professor and student exchange programmes. These are mainly financed through EU projects such as ERASMUS, CEEPUS and FP7/HORIZON2020. The university considers it a priority to expand its international education offering and to create an opportunity for foreign students to participate in partial or full degree courses in a foreign language at Széchenyi István University. More information: http://uni.sze.hu or http://ipc.sze.hu

College of Dunaújváros

Programmes in English
BSc in Technical Management, BSc in Computer Engineering, BA in Business Administration, BA in Communication and Media Science, BSc in Mechanical Engineering, BSc in Material Engineering

General Information
Duration of bachelor programs: 6-7 semesters, Duration of master programs: 4 semesters
Tuition fee for the bachelor degree programs: EUR 3,550/academic year
Tuition fee for the master degree programs: EUR 4,000/academic year

Short Introduction
The College of Dunaújváros, located in the geographical centre of Hungary, plays a leading role in the higher education of its region, and offers a wide range of disciplines to the students from media and business to engineering studies. The language of education for our international students is English. We provide our students a competitive, practice-oriented education and the acquirement of the focused skills needed for building their careers when entering the job market.

International Relations and Projects
The College of Dunaújváros participates actively in ERASMUS student and lecturer exchange programme with more than 30 European partner universities and colleges from 15 countries. Due to our participation in Science Without Borders scholarship program we accept students of Brazilian universities for part-time studies in English language in our campus, as well. We offer a 1-year-long preparatory course to those new student applicants whose English language knowledge needs to be improved before starting their bachelor studies.

Kaposvár University

Programmes in English
Faculty of Agricultural and Environmental Sciences
MSc: Animal Nutrition and Feed Safety Manager

Doctoral School: The Doctoral School of Animal Science
Faculty of Economic Science: Doctoral (PhD) School for Management and Organizational Science, MSc: Regional and Environmental Economics, BA: International Studies

General Information
BA.: 6 semesters Tuition fee: 2300 EUR/semester
MSc.: 4 semesters Tuition fee: 2500 EUR/semester
Ph. D.: Tuition fee: 1500 EUR/semester

Short Introduction
The work of Kaposvár University is carried out in an open and flexible educational system which easily meets the challenges and expectations of the modern age. Our recent graduates from the faculties of Agricultural Science, Economic Science, Pedagogy and Arts are able to meet better the requirements of the domestic and European labour markets due to our successfully operating high-quality education and research activities.

International Relations and Projects
Kaposvár University carries out basic and applied research and wide vocational spectrum in the framework of domestic and international co-operations. It maintains active and good relationship with several institutions in more than 50 countries.

Edutus College

Programmes in English
Preparatory Course for BA Business Studies for Foreigners

General Information
Duration: 2 semesters, Tuition fee: EUR 3,900/semester (incl. full board)

Short Introduction
Edutus College was founded in 1992. Modern courses and curricula, experienced instructors, up-to-date technology and advanced IT infrastructure, practice-oriented education, enterprise projects carried out in small groups and vocational training both within and outside of the country help to maintain the high standard of education.

International Relations and Projects
Edutus College has been extending its international relations since its foundation. It has partners all over in Europe. ‘International Week’ is organized each spring when foreign professors visit for a week to give students lectures on different topics (Marketing, Management, etc.). Foreign students are also welcome. Edutus College participates in the LLP ERASMUS exchange programme since 1997 and is pleased to receive students within the framework of this program.

Further information: mail@edutus.hu or www.edutus.hu

Viticulture and Oenology Engineering BSc
Tourism Management MA
Business Development MSc
Management and Leadership MSc

Type of Programmes and Degrees in Hungarian
Bachelor’s degree, Master’s degree, Master’s level further specialization, Higher level vocational training, Adult training and education.

Short Introduction
Károly Róbert College is one of the determinant higher educational institutions in the northeast region of Hungary. We are committed to increasing excellence in up-to-date theoretical and practice-oriented teaching linked to innovation and research, in order to provide our students with marketable degrees in various academic fields.

International Relations and Projects
One of the key objectives of Károly Róbert College is internationalisation in the strategic educational structure of the institution with a wide and continuously increasing network of international relations with partners from and outside the EU. Taking part in international projects enables us to widen the network of cooperation for innovation and good practices by also contributing to the promotion of European Higher Education.

We have been involved in several LLP Programmes: Ceepus, Erasmus, Erasmus IP (both coordinator and partner), Leonardo da Vinci and Jean Monnet programmes. On the basis of the institution’s activity profile and networking experience, Károly Róbert College is committed to keep up its level of international activity by participating in international projects within the framework of the Erasmus+ Programmes for the period 2014-2020 to enhance the opportunities for cooperation and mobility with both Programme and Partner Countries.

National University of Public Service

Short Introduction
The National University of Public Service (NUPS) is a higher educational institute offering unique trainings in the fields of public administration, law enforcement, military and international and European studies. NUPS’s integrated structure and comprehensive portfolio reflects the growing complexity of social, economic, and security problems that the public sector faces. Trainings cover BA, MA, PhD level education, continuing education for public-, military-, and law enforcement officers, as well as special leadership programs for executives in public service. The University serves as a strategic think tank of the national government, conducting research on various fields of state sciences.

NUPS Faculty of Public Administration
The Faculty provides “Public Administration Manager” BA program, and “Public Administration” MA program. The Doctoral School of Public Administration Sciences was established in 2013. Currently, it is the only doctoral school specializing in the field of public administration in Hungary with the following research areas: Public law and public administration, State and society, Public management, State and economics, Public administration in international and European context, Human resources.

NUPS Faculty of Law Enforcement
The Faculty provides “Law Enforcement Administration” BA, “Criminal Administration” BA and “Disaster Management” BA programs with 16 specialisations, and a “Law enforcement Manager” MA program with 5 specialisations. Students at the Faculty are offered three-term specialised further training courses too. The establishment of a Doctoral School of Police Science is in progress.

NUPS Faculty of Military Sciences and Officer Training
The Faculty provides “Military Leadership” BSc, “Military Logistics” BSc, “Military Maintenance” BSc programs for cadets and “Military Leadership” MSc, “Logistics in Military Operations” MSc, “Military Maintenance” MSc programs at graduate level. The Doctoral School of Military Sciences focuses on the questions of military science regarding the activities of the defence sphere. This includes a wide spectrum of research fields from military history through security theories, defence administration to national security. The Doctoral School of Military Engineering focuses on fields of research that are specifically related to the military application of engineering. This includes the training and preparation for scientific research in various related fields ranging from basic and applied researches and development, through technology and technology-transfer to technological innovation.

Programmes in English
NUPS highlighted the need to internationalize its programs in order to boost international cooperation possibilities and foster diversity. English language degree programs on MA and PhD level are available for those interested in developing an international or European career in public service on the field of security policy, cyber security, human rights, minority rights, EU legislation or funding. The recently introduced “Academy of Diplomacy” special certificate program is designed to foster career advancement via an intensive study and research semester in the heart of Europe.

International Relations and Projects
NUPS has agreements from universities all over the world, mainly aiming at ERASMUS mobility, but the university also focuses on international extracurricular events such as Global Minority Rights Summer School, International Military Academic Forum, FOURLOG or MAGLITE.

College of Nyíregyháza

Type of Programmes and Degrees in Hungarian
Bachelor’s degree, Master’s degree, Master’s level further specialization, Higher level vocational training, Adult training and education

Short Introduction, International Relations
The major objective of the regional knowledge centre programme at the College of Nyíregyháza is the enhancement of the region’s role as well as economic and innovative effectiveness. Therefore our educational offerings comply with the R&D and innovative activities. Three complex programmes that show synergies are in the course of implementation: (1) Knowledge Creating Opportunities – an academic programme, (2) Green Region – an R&D programme, (3) Dynamic Spatial Network – a service programme. The R&D priorities of the institution relate to food industry, vehicle mechanical engineering, agricultural production, use of renewable energy sources, logistics, bio monitoring, environmental analysis, informatics, issues of regional economy, tourism, liberal arts and visual culture, pedagogy and psychology.

The East and Central European Research Centre of the college carry out research concerning Russia, East and Central Europe as well as carrying out educational tasks. The College of Nyíregyháza has 54 bilateral agreements on ERASMUS and CEEPUS Mobility Programmes, 43 bilateral agreements on students and staff mobility and on Cross Border Cooperation Programmes with 23 countries.
Kecskeméti College

Károli Gáspár University of the Reformed Church in Hungary

Hungarian Dance Academy

King Sigismund College

Type of Programmes and Degrees in Hungarian

BA, MA

Short Introduction, International relations
King Sigismund Business School – or ZSKF in Hungarian – was established in 2000 as a response to the increased demand for quality higher education and training created by European integration and national modernization; also as a response to a governmental proposal based on labour market research. ZSKF constructed its degree programmes based on the European Union-supported concept of “lifelong learning” and along four academic pillars (humanities, economics, information technology, social sciences). Degrees are available in 11 Bachelor’s programmes and 6 Master’s programmes, all of which are based on constant observation of the rapidly-changing needs of the labour market. We utilize both innovative and traditional methods our programmes. Over the past few years ZSKF has tripled its number of international partnerships with cooperating higher education institutions. As a result our students can utilize the ERASMUS programme to study in (primarily) other European countries for one or two semesters. We also have partner institutions in the Ukraine, Russia and Vietnam. We organize competence-based training for our students through our Career and Alumni Centre. Trainers and presenters from the private sector prepare students in the areas of communications, conflict management and personal development to better equip our students to face the challenges they may encounter in the labour market.

Hungarian Dance Academy

BA, MA

Type of Programmes and Degrees in Hungarian

BA, MA

Short Introduction
Hungarian Dance Academy (HDA) – or KFKI in Hungarian – was established in 1950 as a result of a need to provide further education for students of the Hungarian National Ballet. The HDA keeps regular contacts with its European partner institutions (from Moscow to London, from Helsinki to Lisbon) as well as global partners. Its annual international summer course takes place in August and is visited by dance students from all over the world. Hungarian students take part in courses and competitions abroad on a regular basis. International dance festivals – inviting 10 to 12 schools – are held regularly. International students become active participants of HDA’s performances and tours.

Hungarian Higher Education 2015

Type of Programmes and Degrees in Hungarian

BA, MA

Short Introduction
The Károli Gáspár University of the Reformed Church in Hungary (Károli Gáspár Egyetem, KRE) was established at ISCED level 5, Adult training and education 2000.

KRE operates according to ISO 9001:2008 quality assurance system regulations.

The Károli Gáspár University of the Reformed Church in Hungary provides education in the field of humanities, law and political sciences, theology and teacher training. Our prime aims and tasks are to reintegrate Hungary back into the cultural system which means and maintains Europe itself, and to build up and meaningfully preserve our traditional and new relations throughout the world. Being a Christian university, we strive to maintain moral and ethical standards in 21st century modern higher education.

We organize competence-based training for our students through our Career and Alumni Centre. Trainers and presenters from the private sector prepare students in the areas of communications, conflict management and personal development to better equip our students to face the challenges they may encounter in the labour market.

Short Introduction
Kecskemét College is a higher education institution of three faculties (Faculties of: Technical Studies, Teacher Training and Horticulture). The aim of the College is to meet the requirements of a modern European higher education institution.

As a pilot project we run dual-training in the field of mechanical and vehicle engineering, with a strong industrial background. Laboratories for languages, IT, Technology and ecology, studios, a library, student residential homes and cultural services make the learning environment pleasant.

Kecskemét College cooperates with more than 51 European universities, actively promotes various international exchange programmes with special regard to ERASMUS+ KA1 and KA2, CEEPUS programmes, and takes part in different projects and networks.

Modules for international students
Kodály and the Contemporary Hungarian Music Education: this is a special ERASMUS full musical study programme in the Teacher Training Faculty, based on the Kodály method and contemporary music educator’s concepts. Period: 1 or 2 semesters.

Short Introduction
In addition, every year we organise scientific conferences with international participants. www.kefo.hu/english, international.

We establish the tutoring of rare languages, such as Japanese and Chinese. We focus on developing special skills in the fields of mental health, communication science, child psychology, health-care and clinical psychology.

We wish to educate and teach our students to help them develop into multi-faceted, tolerant civilians with wide horizons.

Moholy-Nagy University of Art and Design Budapest (MOME) is one of the most significant European institutions of visual culture, thanks to its traditions and intellectual background. In its effort to visualize its professional concepts, MOME combines its own character and traditions with common social values and the most up-to-date trends. Its educational structure comprises architecture, design, media and theory. MOME’s definite ambition is to further broaden its international relations. It welcomes every professional co-operation which inspires its educational and artistic work. There are three degree courses in English (Animation, Photography and Vehicle Design) which enable MOME to exist on a higher level of European education. On the one hand MOME is a university that educates professional designers and on the other hand, is an intellectual workshop with the aim of setting up creative processes in order to enhance design consciousness in Hungary.

Several music majors at BA and MA levels, as well as part-time music courses (classical / jazz instruments).

Type of Programmes and Degrees in Hungarian
Bachelor’s degree, Master’s degree, DLA/PhD, Master’s level further specialization, Adult training and education

Short Introduction
The Franz Liszt Academy of Music trains students in classical, sacred, ethnic and jazz music, musicology and music history. As the Liszt Academy has adopted the Bologna system, the three levels of training are BA, MA, and DLA/PhD. The Academy has always taken pride in meeting the standards set by its founders and revered professors; this has resulted in providing the students with a special and demanding Hungarian teaching method. Guidance is given by excellent professors, who are renowned performing artists, scholars, visiting professors and jury members at other illustrious universities, jury members of international competitions, and for whom teaching is a passion.

Further development, education and training.

Artists and related art professionals in different fields; to be well-educated and to get well-established expertise in drama, theatre, film, television and radio; and also to provide them a possibility of further development, education and training.

The mission of the University of Theatre and Film is to train talented artists and related art professionals in different fields, to be well-educated and to get well-established expertise in drama, theatre, film, television and radio, and also to provide them a possibility of further development, education and training.

Ferenc Rákóczi II. Transcarpathian Hungarian Institute

Ukraine, Transcarpathia 92022 Beregova (Beregszász), Kossuth tér 6. +380 31 41 4 29 68 tkasikola@kmf.uz.ua www.kmf.uz.ua

Short Introduction

This institution is a state-recognised Ukrainian higher education institution of accredited degree III founded and maintained by the Foundation for the Transcarpathian Hungarian College (FTHC). The Foundation was established by the Hungarian Cultural Association of Transcarpathia, the Transcarpathian Association of Hungarian Pedagogues, the Transcarpathian Reformed Church, and the Local Government of the Town of Beregova (Beregszász). The institution has been operating as an independent, officially registered higher education institution with a state operating permit since 1996. Transcarpathian students may pursue studies in 6 departments, 10 programmes in the Institute. The institution has not yet been granted any support from the Ukrainian state. It is professionally controlled by the Ministry of Education and Science of Ukraine. A considerable part of the financial support required for the maintenance of the institution is provided to FTHC by the Ministry of Education of the mother-country, or is completed by means of application.

Sapientia – Hungarian University of Transylvania (Sapientia HUT), one of the Romanian higher education institutions, was founded in 2001. Its establishment was supported by the Hungarian state. The University is operating in three Transylvanian towns (Miercurea Ciuc/Csíkszereda, Targu Mures/Haradomádhegy, and Cluj-Napoca/Kolozsvár). The University provides, in the academic year of 2010/2011, courses in Hungarian in 22 programmes in the following disciplines of science: engineering, political sciences, social sciences, economics, humanities, and arts, under the direction of 260 domestic instructors and foreign guest professors.

J. Selye University

Hungary, Transcarpathia

Short Introduction

The J. Selye University, the youngest higher education institution of Slovakia, is the only independent state-funded higher education institution in Slovakia providing courses in Hungarian. The main purpose of the University is to provide high-level training for primary and secondary school teachers, and theologians as well as training for professionals in fields including finance, IT, and marketing. J. Selye University has a mission to provide native-language education, and to ensure quality training for teachers and educators, theologians and economists working in nurseries, primary and secondary schools with instruction in Hungarian language.

partium@partium.ro, www.partium.ro

Short Introduction

The Partium Christian University (PCU) is an integral part of the system of Transylvanian/Partium Hungarian-language higher education; it is the first independent, accredited university established, after the changes in 1989, by Hungarians living in Romania. Thirteen undergraduate courses and five graduate courses are operated by three faculties of the University (the Faculty of Humanities, the Faculty of Economics, and the Faculty of Arts). Since its foundation, the University has been recognised in the national higher education (university) system, and has also established close and effective cooperation with Hungarian universities through bilateral agreements.

Type of Programmes and Degrees:

Bachelor’s degree, Master’s degree, PhD programmes, Adult training and education
